

I am opposed to lifting limits in media ownership by the FCC. As of now your deregulating the media has concentrated too much power in few companies like Clear Channel and Fox net work. It erodes free speech and gives disproportionate influence on American public in the hands of few media behemoths. It erodes democracy and helps in dumbing of America.

I want strict restrictions on media ownership not to exceed 30% of any market, combined across print, radio, tv, cable and internet.

I am totally opposed to the stand of Chairman Michael Powell consolidating media ownership and deroding my rights as a citizen.
